DETAILED ACTION

1) Acknowledgement is made of Amendment received 5/7/2003. Applicants amend claims 31, 33-38, 43, 50, 51, 71, 77, and 81-87.

Allowable Subject Matter

2) The following is a statement of reasons for the indication of allowable subject matter:

The primary reason for indication of allowable subject matter is that the cited prior art does not show:

a method of operating a machine for manufacturing and/or refining a material web wherein the machine includes at least one machine section, said method including detecting data in a plurality of measurement zones using at least one measurement device that detects data while moving along at least two degrees of freedom of movement (claim 31);

a measurement system for the use in operating a machine for manufacturing and/or refining a material web wherein the machine includes at least one machine section, the system including measurement devices detecting data while moving along at least two degrees of freedom of movement (claims 77, 87).

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the

Application/Control Number: 09/936,526

Art Unit: 1731

unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See In re Goodman, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); In re Longi, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); In re Van Ornum, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); In re Vogel, 422 F.2d 438, 164 USPQ 619 (CCPA 1970);and, In re Thorington, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly

owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3) Claim 31 is provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 100 of copending Application No. 09/936,516. Although the conflicting claims are not identical, they are not patentably distinct from each other because the present claim 31 discloses a method of operating a machine for manufacturing and/or refining a material web "using at least one measurement device that detects the data while moving along at least two degrees of freedom of movement,", and the copending Application 09/936,516, claim 100, discloses a method for determining characteristics of a running material web "moving the at least one measuring device along the at least two degrees of freedom of movement".

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

4) Claims 77, 87, are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 33, 99 of copending Application No. 09/936,516. Although the conflicting claims are not identical, Application/Control Number: 09/936,526

Art Unit: 1731

they are not patentably distinct from each other because the present claims 77, 87, disclose a measurement system for use in operating a machine for manufacturing and/or refining a material web having "measurement devices detecting the data while moving along at least two degrees of freedom of movement,", and the copending Application 09/936,516, claims 33, 99, disclose an apparatus for determining characteristics of a running material web having "at least one measuring device" that "moves along the at least two degrees of freedom of movement during data collection".

This is a <u>provisional</u> obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Response to Amendment

- 5) Claims 31-47, 50-59, 62, 64-66, 69-87, rejection under 35 U.S.C. 102(b) as being anticipated by Clark, is withdrawn in view of amended claims.
- 6) Claims 48-49, rejection under 35 U.S.C. 103(a) as being unpatentable over Clark in view of Fiedler, is withdrawn in view of amended claims.
- 7) Claims 60-61, rejection under 35 U.S.C. 103(a) as being unpatentable over Clark in view of Fiore, is withdrawn in view of amended claims.
- 8) Claim 63 rejection under 35 U.S.C. 103(a) as being unpatentable over Clark in view of Kustermann, is withdrawn in view of amended claims.
- 9) Claims 67-68, rejection under 35 U.S.C. 103(a) as being unpatentable over Clark in view of Arno, is withdrawn in view of amended claims.
- 10) Claims will be allowed upon resolution of the double patenting rejection.

Conclusion

11) THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark Halpern whose telephone number is 703-305-4522. The examiner can normally be reached on Mon-Fri, (9:00-5:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Steven Griffin can be reached on 703-308-1164. The fax phone numbers for the organization where this application or proceeding is assigned are 703-308-7718 for regular communications and 703-305-3599 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-0651.
